LIVING
YOUR BEST
LIFE

LIVING YOUR BEST LIFE CHALLENGE

PeopleCare Health Services is hosting a golf tournament to raise funding and awareness for ALS.

Amyotrophic Lateral Sclerosis (ALS) is a progressive neuro degenerative disease that affects nerve cells in the brain and the spinal cord. The progressive degeneration of the motor neurons can cause new challenges each day. We encourage not just those with ALS but everyone to live their life to the best of their ability. You never know what changes tomorrow will bring!

Help us raise funding for the Quality of Life Grant to help better assist with the daily changes degeneration can bring. This grant will bring many benefits including respite care, medical co-pays, home modifications, and equipment
