THE SBAC MISSION

We believe the success of small businesses is a critical component of local communities and the nation's economy. The SBAC has spent the last decade alongside small business owners fighting for reasonable policies that foster a healthier small business environment - economically, socially, and culturally.

The SBAC's non-partisan approach continues to shape local, state, and federal small business legislation.

Thank you to our partners: [NAWBO](#) and A Safe Haven,

CHAMBER ADVOCACY

While the complex situation on the tax deductibility of PPP loans is where most small business owners focused their legislative concerns, we understood the unique role local Chambers of Commerce play in the advancement of small business interests. When the pandemic hit and 501(c)6s were excluded from all legislative relief efforts, we immediately galvanized support. In our letter to the IL congressional delegation, we assembled 58 chambers of commerce, from all across the state, behind one unified message. This is a true testament in our ability to tailor advocacy initiatives in the most non-partisan and effective manner.

TAX DEDUCTIBILITY OF PPP LOANS

In April, the IRS published Notice 2020-32 saying that under section 265 of the Internal Revenue Code business expenses paid for from a class of tax-exempt income – a forgiven PPP loan – are taxable. This would have been absolutely devastating for small businesses that were already struggling to stay afloat. Urgently, with the aid of our members and Chamber partners, we used our voice in the nationwide effort **demanding a legislative solution**. That solution was reached with Section 276 of The Consolidated Appropriations Act 2021. This amended the original CARES Act to clarify that PPP loans are in fact tax-deductible – a major victory for the grassroots effort to save small businesses.

HOME BASED BUSINESSES

Ordinance SO2021-332 expands the limit on home based business operational space to 300 square feet or to 25 percent of the total floor area in any single-family residence, and more than 15 percent of the floor area of a unit in a building containing multiple dwellings. This allows business owners to unleash their productivity and work from home during the pandemic. The ordinance represents a successful collaboration of partnerships between the SBAC, the IJ Clinic, and BACP. ,

PUBLIC WAY USE PERMITS

The Small Business Advocacy Council and a robust coalition of business and community organizations have been fighting to reduce the time it takes for small businesses to obtain a sign or other public way use permit. They have been calling on policymakers to cut red tape so that small businesses can display a sign more quickly and let potential customers know they are open for business. Mayor Lightfoot and the Chicago City Council have answered that call and come through in a big way! In July 2021, an ordinance was passed that eliminates the need for City Council approval on almost all sign and other public way use permits.
