Registration for golf teams is coming soon!

Hazel's Story

Hazel was born in January 2018 and was diagnosed with cystic fibrosis when she was just 3 weeks old. It is a rare genetic disease that causes excess mucus production in the body, affecting the lungs, pancreas, and other organs. It is a progressive, life-shortening disease which creates an increased risk for lung infections and other illnesses. Hazel has 30 minutes of breathing treatments twice daily and requires medication each time she eats. Currently there is no cure for CF, but we are working together to raise money for The Cystic Fibrosis Foundation to find a cure for Hazel and all those impacted by this "invisible" disease.

Hazel is the daughter of Jason and Julie Dornblaser Hejny and sister to Walker. Sadly, when Hazel was only 8 months old, her mother Julie passed away as the result of a tragic accident. Since that time, our family and friends continue her mission to make CF stand for CURE FOUND!

Friday, September 15th
Foxwood Country Club in Jacksonville, AR
