## About Breathing Room

Established in February of 1997, the Breathing Room Foundation was founded by Bernie and Diane Fitzgerald as a response to the overwhelming support received from their family, friends, and the community that surrounded them during Diane's six year battle with cancer.

BRF provides an unmatched personal connection that makes a measurable impact in thousands of lives. We provide personalized support and relief to families affected by cancer. BRF's support programs range from transportation to appointments, financial support for groceries or utility bills, comfort packages, social check-ins, children's programs, provision of medical supplies, nutritional supplements, groceries and care packages, and more.

BRF has grown from a small non-profit organization, known for helping with lawncare and house cleaning to a leader in cancer support care for the Philadelphia area, driving systemic change in the fight for equitable access to care. We have kept our focus on supporting individuals and families by meeting them where they need support the most, listening to their challenges, and responding with the outstretched hand of a caring friend represented in our logo.

## BRF Vision & Mission

Our mission is to provide individualized care and support to families affected by cancer by addressing their most critical needs so that they can concentrate their efforts on regaining their physical health. We aim to improve the lives of families affected by cancer by ensuring no one feels alone in their fight.

# Sponsor Package

All proceeds from the BRF Golf Outing provide programming for thousands of families fighting cancer in the Philadelphia region.
